A. Find location &
 under construction

very dark — sort of a line, NEAR mts
 (URALS) NEAR southern end west side
 Almost in straight line, not quite, last dot
 farther away than other two, by twice as much
 distance

Low & right of large city

+6 ✓ Upper left, southern URALS

+7 ✓ one in mts the one we are looking for

Doesn't look like it is very well cleared
 out yet — desolate, unpopulated Area

+10

Something else interests me twice as far
 As that one — distance over by Vladivostok
